P.T.O.

4. Since the installation work of 11 KV meter and metering unit for HT consumer was required to be completed urgently as such the tender was invited both for meter and metering unit. Though tenders for 11 KV HT Meter and 11 KV HT Metering Unit were issued simultaneously, 11 KV HT Meter had been supplied by the meter supplier timely, but due to non supply of metering unit by the said firm, BSEB could not install meters to its 11 KV HT consumer and had no option but to invite a fresh tender for procurement of metering unit. Therefore the BSEB could not execute the work in time due to aforesaid inaction on the part of the said firm.

As per the dispatch allocation issued to the said firm, 8 Nos. metering unit was to be delivered to Central Store, Darbhanga and 18 Nos. to Central Store, Saharsa. But the firm had requested for delivery of 08 Nos. metering unit to Central Store, Muzaffarpur in place of Darbhanga and 18 Nos. to Central Store, Bhagalpur in place of Saharsa. The aforesaid dispatch allocation was revised on firm's request vide letter no.364 dated 27.02.2012. But the quantity allotted for delivery to Central Store, Muzaffarpur, has been delivered by the firm to Central Store, Digha. Due to above, revised D.I. was again issued vide letter no.877 dated 08.05.2012 of ESE(QC & Insp.) for regularization of material. Hence, the firm have taken too much time in partial delivery of material. It is evident that in spite of last and final inspection call of the said firm vide their letter dated 27.01.2011 and this office dispatch allocation dated 06.02.2012 for supply of complete quantity (208 Metering Units). the said firm had not supplied 76 Nos. Metering Unit as on 01.06.2012.

Due to non-supply of complete ordered quantity even after lapse of 14(Fourteen) months time and commencement of supply of metering unit from fresh tender, the Purchase Order No.19 dated 25.03.2011 issued to the said firm was short closed vide letter no.634 dated 01.06.2012 of ESE(Purchase) for the failure of the said firm to supply the balance materials to BSEB and causing irreparable loss to BSEB.
